Approved For Release 2003/08/07: CIA-RDP80-00810A004101070005-3 25X1 25X1 SECRET. -2-, 1 March 50 to Kerkwitz 50 each to Baruth and Boernichen 5 March Burgkemnitz 11 March to Grossenhain 13 March 22 March 60 to Laucha 6 25X1 On 10 March, a traffic conference was held in Berlin. At this conference it was announced that 200 x 4-axle express train coaches were scheduled to be built in 1954. Seventy of these new cars were to be in operation prior to July. 25X1 Comment. Confirms deactivated locomotive columns No 3 at Ruednitz, No 6 at 25X1₁. Strasburg, and No 13 at Ducherow. 25X1 Comment. According to the last known daily coal consumption quota of 23,000 tons, coal stocks available on 7 April represented about 5.3 days' re-25X1 quirements. 25X1₃. Comment. The daily coal consumption quota valid in February and March 1954 amounted to 23,000 tons of briquette units for locomotives and 3,000 tons of 25X1 briquette units for shop purposes. 25X1 ₄. Comment. Soviet transportation control headquarters are attached to each RBD. These headquarters control all Soviet rail shipments both of military and commercial nature. Chernozub (fnu) a senior lieutenant, was previously known as holding an assignment at the Soviet transportation control headquarters attached to RBD Berlin. 25X1 Comment. The dispatcher system which has been copied from the Soviets is scheduled to be introduced within the East German railroad administration in 1954. The new system is expected to lead to an increase of operational efficiency. The organizational changes reported are believed to be connected with the introduction of this dispatcher system. 25X1 Comment. It is intended to form a reserve pool of freight cars including 25X1 6. boxcars. 4.500 gondola cars and 2,000 flatcars by 31 August 1954. 25X1 25X1 Comment. The 1954 Economic Plan of the East German railroad administration 25X1 only envisaged the construction of 50 passenger cars.

25X1
